

BUILD THE YALLAH INTERCHANGE

Give Dapto & West Dapto residents access to the Albion Park Rail Bypass

To the Honourable Speaker and Members of the Legislative Assembly of New South Wales:

The petition of residents of New South Wales brings to the attention of the House, the State Government's plan to exclude residents in Dapto and West Dapto from easily accessing the new Albion Park Rail Bypass.

We note that while the Government currently has two plans for the northern end of the Bypass, only the Yallah interchange option includes easily accessible on and off ramps in both directions.

We call on the State Government to build the proposed Yallah interchange so that local Dapto and West Dapto residents will be able to easily access the Albion Park Rail Bypass.

We, the undersigned, ask the Legislative Assembly to call on the Government to build the Yallah interchange.
